

M10TEK BTP DEVELOPMENT SERVICES

Enabling Intelligent SAP Transformations in the Cloud

As organizations accelerate their move to the cloud, the path to modernizing SAP landscapes and custom applications can present significant complexity. With years of investment in tailored SAP solutions, it's essential that companies not only protect that investment but also evolve it to stay competitive.

At M10TEK, we help our clients bridge that gap—ensuring that custom SAP applications can be adapted, extended, & future-proofed as part of a successful transition to S/4HANA and the SAP Business Technology Platform (BTP).

The Strategic Value of Innovation-Ready Development

Digital transformation isn't just a buzzword—it's a business imperative. Recent studies have shown that companies with the ability to innovate faster through software enjoy significantly higher shareholder returns and stronger margins. Application development is no longer just an IT function; it's a key driver of performance and differentiation.

THAT'S WHERE M10TEK COMES IN.

Our **BTP Development Services Practice** is purpose-built to help organizations design, modernize, integrate, and manage their SAP solutions on BTP—enabling rapid innovation while keeping the S/4HANA core clean and stable.

WHY CHOOSE M10TEK FOR BTP DEVELOPMENT?

Our team includes senior SAP consultants with deep technical expertise & real-world experience delivering results across complex enterprise environments. We bring:

Hands-on experience with SAP BTP technologies such as RAP, CAP, low-code platforms, and workflow automation

Deep knowledge of BTP Integration Suite for seamless enterprise connectivity

All consultants have **7+ years** of relevant development experience

Proven expertise in BTP services like HANA Cloud, Cloud Foundry, CI/CD, Transport Management, and Application Studio

A strong understanding of SAP architecture and the value BTP delivers to enterprise agility

M10TEK'S CORE BTP SERVICE OFFERINGS

As organizations accelerate their move to the cloud, the path to modernizing SAP landscapes and custom applications can present significant complexity.

01.

Upgrade Readiness & Cloud Advisory

- Assess current custom development landscape
- Evaluate business value and technical fit for cloud adaptation
- Provide future-state roadmap aligned with business goals

02.

Custom Cloud Solution Design & Development

- Define requirements and scope
- Deliver user-centric design with robust UX
- Develop, test, and validate solutions aligned with business priorities

03.

Cloud Transformation & Ideation Workshops

- Engage stakeholders in cloud-ready ideation
- Align value streams with strategic outcomes
- Identify risk factors and high-priority areas
- Provide ballpark scoping and delivery roadmap

04.

Deployment & Ongoing Support

- Support go-live readiness and cutover activities
- Deliver continuous change management and post-go-live enhancements

Industry Experience, Tailored Engagements

M10TEK has successfully delivered BTP-based solutions across a wide range of industries. Our consultants understand the nuances of both business processes and SAP technical architecture, enabling us to deliver solutions that align with sector-specific goals and regulatory requirements.

Whether you're in the early stages of BTP exploration or looking to scale existing innovation, M10TEK offers the strategic guidance and delivery expertise to help you succeed.

About M10TEK

M10TEK is a leading SAP consulting and workforce solutions firm, trusted by enterprise clients for delivering high-impact results across complex transformation programs.

Our expertise spans SAP S/4HANA, cloud migration, BTP development, and long-term support models. We pride ourselves on building collaborative partnerships that empower organizations to innovate with confidence.
