M10TEK + SAP Signavio Services

Transforming Business Processes Into Strategic Advantage

M10TEK empowers enterprises to unlock process intelligence and drive transformation with SAP Signavio. We help organizations visualize, analyze, and optimize their business processes with a focus on value delivery, transformation readiness, & continuous improvement — all aligned to SAP S/4HANA & cloud modernization.
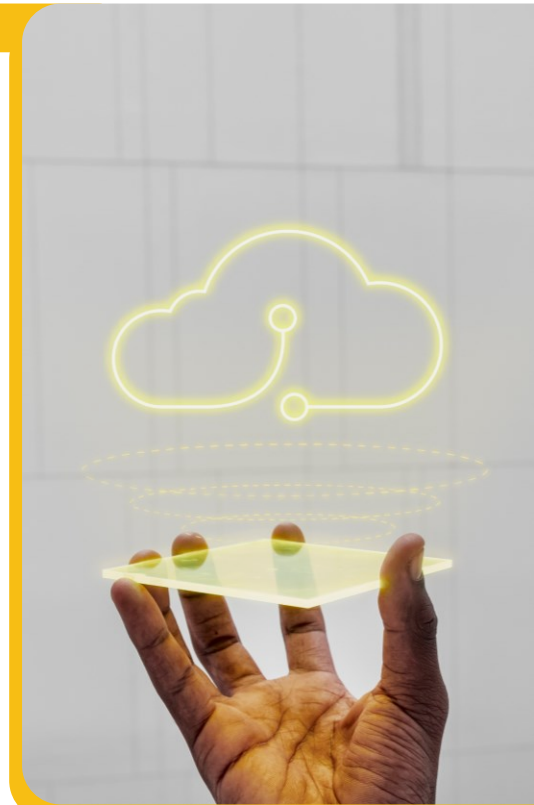

Core SAP Signavio Services:

- **Process Discovery & Mining:** Analyze real-time process execution using system data
- **Process Modeling & Optimization:** Document and improve current-state and future-state processes
- **S/4HANA Value Acceleration:** Identify automation potential and digitalization targets
- **Experience Mapping:** Align customer and employee journeys with operational KPIs
- **Governance & Compliance:** Maintain auditable, standardized, and risk-aligned processes

Our Methodology:

- **Assess:** Connect systems, mine data, & evaluate current process maturity
- **Visualize:** Model processes using Signavio's collaborative interface
- **Align:** Prioritize opportunities based on impact, value, and effort
- **Transform:** Implement automation, redesign, or standardization initiatives
- **Sustain:** Establish monitoring KPIs & enable continuous improvement cycles

Industry Alignment:

- **Manufacturing:** Global process standardization and efficiency tracking
- **Life Sciences:** Regulatory-compliant process transformation (e.g., GxP)
- **Public Sector:** Process transparency and accountability
- **High Tech & Software:** Agile operating models and scalable frameworks
- **Utilities & Energy:** Harmonization & risk mitigation across operational sites

Tools & Accelerators:

- SAP Process Template Library
- Fit-to-Standard Workshop Kits
- Value Driver Tree and Prioritization Matrices
- Prebuilt Mining Scripts and Extraction Connectors
- KPI Monitoring Dashboards with Alert Triggers

Why M10TEK?

- SAP Signavio certified consultants with deep ERP experience
- Integrated approach for ECC, S/4HANA, and BTP landscapes
- Proven frameworks for both Greenfield and Brownfield deployments
- Trusted to lead white-labeled transformation programs for global clients

Complimentary OCM Readiness Assessment

M10TEK offers a no-cost Signavio readiness check. We assess your current SAP landscape, identify process improvement opportunities, and help you build a transformation roadmap.
